GUARDING AGAINST UNEXPECTED CALL

Prepare For Assault on American Outposts.

FILIPINOS MAY ATTEMPT TO RE-OCCUPY LOST GROUND.

Force of Insurgents Reported to Be at Salitran—Battalion Sent From Imus to Watch Their Movement in Reconnoiter of Adjacent Country—Violent Volcanic Disturbances in Progress in the South Central Islands of the Philippine Archipelago—Heavy Earthquake Shock Felt at Iloilo.

Manila, June 17—[Special]—Every precaution is being taken to guard against an unexpected return of the Filipino troops, under command of Gen. Noriel and any consequent assault on the American outposts in the territory from which the former were driven last Tuesday.

A force of insurgents is reported to be at Salitran and a battalion of the Fourteenth infantry has been sent from Imus to watch their movements in the reconnoiter of the adjacent country.

Violent Volcanic Disturbances.

Manila, June 18—[Special]—Violent volcanic disturbances are in progress in the south-central islands of the Philippine archipelago.

Heavy earthquake shocks were felt at Iloilo.

A volcano in the island of Negros is in a state of eruption and seismic shocks have occurred at various places.

The peculiar construction of buildings at Iloilo and other places prevented any serious damage by the shocks.

GUNBOAT NAPIDAN'S GOOD WORK

Does Deadly Work to a Flanking Party of Insurgents

Manila, June 17—[Special]—The gunboat Napidan came down the Pasig river yesterday from the lake where she had been cruising.

The officers report that on June 10, while Gen. Wheaton engaged the rebels near Taguig, a flanking party was discovered creeping along under cover of the bluffs.

The Filipinos did not discover the Napidan, which was able to steam within five hundred yards of them, when she opened fire with all her guns.

The insurgents were cut down like chaff, and those who escaped injury fled. The Napidan undoubtedly saved General Wheaton's troops from a serious flank attack.

After proceeding down the lake a short distance, the Napidan annihilated the Filipinos supply train.

Still further down she destroyed the barracks containing five hundred of the insurgents.

The landing party found nearly sixty dead and wounded.

Manila, June 17.—After cutting the railroad and telegraph at Apalit, seven miles south, for the purpose of severing connection, the rebels attacked Gen. MacArthur's lines at San Fernando at 4:30 o'clock Friday morning. They met with an unexpectedly warm reception, and were repulsed with a loss of seventy-five killed, thirty prisoners and many wounded. The rebel force, estimated to have numbered 5,000 men, advanced stealthily from the jungle north of the city, and then divided, with the evident purpose of surrounding the Americans.

Outposts of the Iowa regiment discovered the enemy and retired to their lines, where the entire division awaited in an intrenched position. The Iowa regiment and the Kansas regiment received the first shock of the advance.

Reserving their fire until the enemy was within 600 yards, the first volley of the Americans hit the rebels, who returned the fire wildly, the rest of their line falling to advance. The Americans, who thoroughly enjoyed the novelty of the situation, awaiting an attack, sallied forth, and the insurgents thereupon turned and fled into the jungle. Our loss was fourteen men wounded, and the majority of them are only slightly hurt.

Gen. Funston's brigade of Kansas and Montana and Gen. Hale's brigade, the Seventeenth regiment and the Iowa regiment, constituted the force engaged.

Aguinaldo is reported to have personally conducted the attack, and preparations were made for several days to bring forward troops from Candaba, and others, from Daguipan, were transported by rail.

Along the front of the Kansas regiment thirty-nine rebel dead were counted.

Official Dispatch from Otis.

Washington, June 17.—The following cablegram has been received from Gen. Otis at Manila:

"Northern insurgents concentrated a large force near San Fernando and early this morning attacked MacArthur's troops. The enemy was quickly repulsed and driven back, leaving over fifty dead on the field and a large number of wounded. The enemy is in retreat. Our casualties, fourteen wounded, mostly very slight. Preparations for this attack were in progress several days and believed to be under the personal direction of Aguinaldo."

ARE ANXIOUS TO SUPPRESS NEWS.

Gen. Otis Ordered by Washington Officials to Keep Up Censorship.

New York, June 17.—A special dispatch to the World from Washington says: The president is determined to continue to enforce the censorship of private and press dispatches at Manila. Within a few days he has intimated forcibly to Gen. Corbin that too much information is being made public from the war department. Gen. Otis is in supreme authority over the Manila censorship, and it is not within the war secretary's province to order its abatement. Newspaper correspondents are forbidden by Gen. Otis to file press reports from Hongkong, and are warned that if they evade the censorship by this method their "usefulness to their papers will cease immediately."

Col. Thompson, the first press censor at Key West, is now in charge at Manila. In a private letter to an officer here, Col. Thompson writes: "My duties are exceedingly trying." Authentic information regarding the true situation in Manila cannot be obtained from the dispatches posted at the war department. Advices regarding the situation are suppressed. It is said that the war department officials go so far as to insert phrases in the official reports as given out.

TO RUSH THE RE-ENFORCEMENTS.

Four Transports to Sail Within Ten Days with Nearly 4,500 Men.

Washington, June 17.—That Gen. Otis may be able to renew as soon as possible active operations against the insurgents, the war department has issued special orders directing the immediate preparation of transports to carry to the Philippines nearly 4,500 more troops.

The renewal of attacks upon the American forces in the vicinity of Calumpit and San Fernando does not alarm the department however, as Gen. MacArthur is in that part of the country with nearly a complete division, comprising nearly 7,000 troops. If the insurgents have been able to perfect an organization in the Calumpit country it is more than probable that Gen. MacArthur will advance upon them, and that the next battle to be fought will be in that vicinity.

The war department is without official information regarding the reported assassination of Aguinaldo. The report is not believed to be true.

Aguinaldo Not Assassinated.

London, June 17.—The Filipino junta here says there is no truth in the report circulated here and cabled to the United States that Aguinaldo has been assassinated.

Segler who was on his way home from work, and was riding a bicycle, attempted to cross in front of the car which was going full speed. The car caught the rear wheel of the bicycle and both wheel and man were pulled down under the wheels and dragged fifty feet before the car could be stopped. With difficulty the man was extricated, but he was alive when taken out. The patrol wagon took him to the home of his sister, where he died in a few minutes. Physicians say that his neck was broken. Conflicting stories are heard as to who was to blame for the accident. Segler had lived in Racine sixteen years and was well known in German circles.

GOV. PINGREE VETOES BILLS.

Michigan Legislators End Their Work Amid Tumult.

Lansing, Mich., June 17.—Amid scenes of disorder the Michigan legislature adjourned sine die shortly after noon Friday, after receiving two important vetoes from Gov. Pingree. One was of the bill reducing the sugar bounty from 1 cent to one-half a cent a pound. The other was of the measure appropriating $40,000 for a state building and exhibit at the pan-American exposition in Buffalo. In the messages voicing his disapproval the governor took occasion to reiterate his views on the taxation subject.

There was no attempt to override either veto, but an effort was made to enact a substitute bounty measure. The house passed a bill giving each beet-sugar factory $25,000 annually, but the senate amended it by making it inoperative until 1904. This reached the house too late for action, and therefore the bounty of 1 cent a pound will stand.

Bombard Cars with Stones.

Cleveland, Ohio, June 17.—Riotous scenes were prevalent in nearly all downtown streets during the noon hour Friday. Non-union crews running cars on the Big Consolidated Street Railway system were showered with stones by mobs of sympathizers with strikers, and policemen who sought to restore order were roughly handled. Few arrests were made.

The strikers are said to have made unofficial overtures to return to work. President Everett told them they could do so only on condition that those for whom there are no places go on the waiting list, as he has guaranteed permanent positions to all the new employes.

The Swiss Army.

Apart from the miniature states of Monaco, Moresnet, and San Marino, which can only boast of a few soldiers apiece, kept more for ornament than use, the army of Switzerland costs less to maintain than any other European army. That country—though expending about $500,000 yearly on its army—can, if necessary, put 100,000 trained soldiers into the field in two days, besides having a reserve of 100,000 more and a militia numbering 270,000 men. Target-shooting societies are encouraged by the Swiss government, with the result that almost every man in that country is a marksman. The soldiers serve ten years between the ages of 22 and 32, being called out for drill on forty-five days in the first year and sixteen days in each subsequent year. Each man keeps his uniform, rifle and knapsack at home, and is responsible for their being kept in good order, a strict inspection being held early.

Children of the Himalayas.

Travelers in India report that in certain parts of the Himalaya mountains the native women have a singular way of putting their children to sleep in the middle of the day. The child is put near a stream of water, and by means of a tin scoop or a palm leaf the water is deflected so as to run over the back of the child's head. The water pouring over the child's head sends it to sleep, and keeps it so, while the mother proceeds with her work in the field. No one seems to fear that the baby may be drowned, and perhaps many a one does perish in that way.

EMPLOYERS REFUSE TO RECOGNIZE UNION

ONLY MATTER PREVENTING SETTLEMENT OF STRIKE.

The company makes a proposition to deal with the men, but refuses to recognize the union.

The strike leaders announce that the matter is on the verge of a settlement.

A number of efforts were made this morning to prevent the running of cars by placing huge boulders on the tracks, but wrecking wagons soon cleared the roads.

HEAVY STORMS IN NEBRASKA.

Rain and Hail Do Damage and Drive People to Cyclone Cellars.

Omaha, Neb., June 17.—Severe atmospheric disturbances have worried Nebraska people ever since the Herman cyclone. Thursday night and Friday threatening clouds drove people into the cellars, while rain has fallen in torrents all over the state, in some places accompanied by hail. Many fine fields of wheat were ruined.

The last two victims of the Herman cyclone, J. E. Hawkins and Postmaster W. S. Richards, were buried Friday, the former in Omaha and the latter in Blair. The injured are doing well and will probably all recover.

The work of relief is progressing satisfactorily. Gov. Poynter ordered fifty tents sent to Herman and issued an appeal for aid. Blair and Tekamah are caring for the wounded and contributing liberally, while several thousand dollars has been raised in Omaha.

The work of rebuilding has begun. It is estimated that $75,000 is needed at once. It will be supplied without delay.

LOSS OF PROPERTY IS IMMENSE.

Floods Have Devastated the Rio Grande Valley in Texas.

San Antonio, Texas, June 17.—The flood which has devastated the Rio Grande valley caused a loss of property that will approximate a third of a million dollars. The Rio Grande at Eagle Pass rose forty feet Wednesday night, completely isolating the town and carrying away the iron bridge which connects Eagle Pass with Ciudad Porfiro Diaz, Mexico. Rain is still falling in the Rio Grande valley. The loss of life in consequence of the water spout Wednesday promises to be heavy, principally ranch hands and Mexicans living in settlements on the Nurees river. The first news from Brackett, which was laid in ruins by the flood Wednesday, was received Friday. The dispatch says the entire town is wiped out and that all county records are destroyed. The people are homeless and are being sheltered and fed on military rations by the negro cavalry troop at Fort Clark.

Symptoms of Over Exertion.

An eminent German physician declares that as long as a bicyclist, after a long tour, has a good appetite, does not feel a desire to go to sleep at once, and is not annoyed by heavy dreams on the night following, he may consider that he has not made too great a demand on his physical resources.

CASHIER'S LOANS CAUSED FAILURE

REAL RESUT OF COLLAPSE OF STOUGHTON BANK.

Investments in Mexico and Texas Lands—Advanced Sums to I. O. Brictson—Joice to Receive Half the Profits—Statement Prom Bank Examiner Kidd.

Reports which have been circulated ascribing the failure of the Dane county bank at Stoughton to the large loans made to I. O. Brictson of Deerfield are denied by him and his statement is corroborated by a similar statement made tonight by Bank Examiner Kidd. In the reports circulated Mr. Brictson is made responsible for the disaster which overtook the bank a few days ago.

Mr. Kidd says the responsibility for the failure rests with the officers of the bank, and especially its cashier, J. H. Joice, who, until recently, had practically full charge of the institution and was allowed to make loans without consulting with the other officers or directors. Exorbitant sums were borrowed from the bank by other parties, including the cashier without security. In addition to loans made to Mr. Brictson, the amount of the liability on the part of the cashier as maker or endorser exceeding the amount due from any other borrower. All the loans went into speculative ventures in which the cashier was largely interested. Instructions were repeatedly given to the officers of the bank to call in these loans or demand ample security to protect them, but such instructions were not followed.

Bank Examiner's Orders Not Heeded

In December last an examination of the bank was made by Mr. Kidd, after which written instructions were given the officers and directors to call a meeting at once and insist that all large loans be called in, reduced in amount or properly secured. In March the bank was again visited, and the examination disclosed the fact that these loans not only remained unsecured and unpaid, but contrary to instructions given by the bank examiner, they had been largely increased. Mr. Kidd at that time instructed the president to call a meeting of the board of directors at once and by resolution appoint a discount committee, which committee should be required to pass upon all loans above a specified amount, which was done. A few days later he called the directors to his office at the capitol, and after going over the affairs of the bank in detail, drafted a resolution authorizing O. M. Turner, president, to take active charge of the bank, with instructions to the board to hold a meeting upon their return to their banking office and adopt it, and proceed at once to collect or secure all the large loans. The records show that this resolution was adopted April 1, after which time President Turner was in charge of the bank until it closed.

The Large Loans

All of these large loans were invested in a cattle ranch in Mexico and an irrigation plant and lands in Texas, in both of which the cashier was and is now largely interested. In investigating the bank's affairs Mr. Kidd found that Cashier Joice entered into an agreement with Mr. Brictson to loan Brictson a certain sum of money, the consideration being that Mr. Joice should receive half of the profits of the venture. The money used for this purpose was presumably funds of the bank, as several notes for large sums given to Mr. Joice and endorsed by him to the bank are now a part of its assets. Mr. Kidd has caused Mr. Joice to make an assignment of this contract, together with all his other interests in the south, to the bank.

Bank Officers Responsible.

"The responsibility for the failure of the bank," said Mr. Kidd, "rests with its officers, and chiefly with its cashier, as that official was implicitly trusted in the management of affairs. He went to the extreme of recklessness in using the funds of the bank and allowing them to be used by others to bolster up speculative ventures in which he was largely interested; and it can hardly be presumed that these methods would have been practiced had he not become personally involved in these transactions. The other officers of the bank, and the directors, should have given more attention to its management, as they had ample warning of the reckless methods which were being practiced, but they seemed reluctant to interfere because the cashier and his brother controlled a majority of the stock of the bank, and assumed that their wishes should control.

"It is to be hoped for the good of all parties interested, that these investments may prove profitable. If, however, such should be the result, it will have been brought about by business methods of a crude and speculative character and by transactions far removed from those which should characterize a legitimate banking business. I know little, personally of Mr. Brictson. If he has made a mistake in judgment, it is his loss. It was optional with the bank, however, to make or refuse to make the loan. Bank officials who handle a bank's funds, which are intrusted to their keeping, have no right to part with them for any purpose without using due diligence in protecting them from loss or possibility of loss.

EARLY SUMMER OUTING GOWN FROM HARPER'S BAZAR

A very charming gown taken from Harper's Bazar is published in today's issued. It is of light wool cloth, suitable for yachting trips or for drives, and has a plain circular skirt of cloth (the plaid side out,) trimmed with curved stitched bends of plain cloth. The skirt is gracefully fitted to the figure, and is closed at the center of the back under two inward turning pleats. The pattern of the scalloped band accompanies that of the skirt, and the latter is perforated to show the exact position of the band. The little jacket is an exceedingly pretty form of a late walking coat. Its trimming consists of stitched bands of plain cloth, and these border the scal lops of the coat and revers. The garment is unlined, and the plaid side of the cloth employed for the collar forms the only variation in the coat which closes under a (side) fly. The sleeve has the scantiest of gathering about the upper arm. There is a slight flare at the wrist, but no added cuff.

This is an excellent design for fine linen, in which a checked and a plain material might be stylishly combined, or for a mourning gown of Henrietta cloth with applied crepe bands. It will also prove a desirable model for early fall cloth gowns in goods of one color. In this case the revers and bands may be of plain silk or of contrasting cloth. Where double faced material is used, a two-inch hem will be a sufficient finish at the bottom. Where thinner material is selected and a lining is to be used, the latter should be cut exactly like the outer skirt, and a three-inch band of crinoline should be used to stiffen the bottom, which may then be bound with velveteen or braid, as individual taste may decide.

Of double-faced wool material 54 inches wide 5 yards will be required to make the costume. Of plain and plaid linen 27 inches wide, 3½ yards of plain and 7 yards of checked or plaid will be found sufficient.

ANNUAL OUTING OF GROCERS

Janesville Business Men Will Have a Good Time.

Last evening at Hanley Bros. & Co.'s commission house a meeting was held for the purpose of arranging for the annual picnic of the Janesville grocers, the date of which has not yet been decided upon.

George Warren Skelly was elected chairman and Beaumont DeForest, secretary. A committee of five, consisting of George W. Skelly, C. N. Van Kirk, C. A. Thompson, Seymour Johnson and John H. Jones was appointed to make arrangements for a picnic which will be held sometime in the near future.

It was decided to hold the picnic at some point out of the city, which could be reached by rail. The matter of selecting a suitable place was left to the decision of the committee of arrangements.

Y. M. C. A. TEAM LOSE FIRST GAME

Defeated By Sacred Heart College Club of Watertown.

The base ball game yesterday between the local Y. M. C. A. team and the Sacred Heart College team from Watertown at Athletic park was the opening of the base ball season in the Bower City.

It was a bittter pill for the local admirers of the Y. M. C. A. team and lovers of the game to witness the defeat of the home club, but the merits of the game were such that they could not lose sight of the fact, neither could they help but enjoy it and the fair sized gathering dispersed pleased, though not satisfied.

The members of the local team are not discouraged in the least over their defeat, neither are their admirers, for they appreciate the fact that their favorites went against one of the strongest teams in the state, one that is in thorough trim from continual practice. They are playing every day and aside from that they are first class ball players and to use the term of the street urchin, "dey're onto der job."

The batting power of the local team was one of their weak features. Adkins pitched a phenomenal game and retired sixteen of the visitors to the bench on strikes. McMasters and Brown made several brilliant stops.

Following is the official score complete:

A simple and safe way to clean costly and easily-injured articles is to make a suds of hot water and Ivory Soap, and allow it to cool until lukewarm. This solution, while very effective, is perfectly harmless.

Ivory Soap contains no alkali. It will not destroy the surface or texture of any material, however delicate.

Ivory Soap differs from other soaps. It is more carefully made, and the materials used in its manufacture are the purest and best.

STORIES OF THE STREETS

Janesville People Are Talking About it on Every Corner.

It is sometimes an easy matter to fool the public, but you can't keep it up long. They are sure to find it out; and every time a man is fooled another skeptic is made. Skepticism is allowable when reading in a home newspaper about some incident occurring in San Francisco, Calif., or Maine, but the circumstances are entirely different when it refers to some one right here at home friends and neighbors, people you know, whom you can see and with whom you can talk it over. This is the kind of evidence at the back of Doan's Kidney Pills—home statements by home people—and the astonishing local work they have been doing has caused more talk among our citizens than the doings of any other modern wonder. Read the following.

Mrs N. J. Casey, of 107 Prairie Ave, says: "Doan's Kidney Pills proved better than any other medicines I took for my kidneys. These organs troubled me off and on for some years. Backache was the chief symptom. It often caused me to suffer severely, and tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples' Drug Co's. store. I had only taken them a few days when I felt better. Should there be any recurrence of my trouble I shall use Doan's Kidney Pills in preference to any other medicine. They can be depended upon to relieve suffering from back che or disordered kidneys."

OUR LIBERAL CITIZENS.

Chief Engineer Spencer of the fire department, who had charge of the canvass of the city for supplies for the New Richmond sufferers, says that too much cannot be said in praise of the kind hearted citizens of Janesville. At every home the committee visited, contributions were freely offered.

"I could have raised a thousand dollars in cash in one day, I believe," said the chief, and although we only visited one section of the city, we got six big loads of supplies. We had more clothing, etc., than we could use offered us. The women of Janesville responded nobly with donations."

This record is to the credit of Janesville people. We know not when we shall be forced to ask charity for ourselves, and in "giving to the poor" we are but "lending to the Lord." The people of the fair Bower City have indeed done a noble work.

According to a paragraph that is going the rounds of the press, the belief that Friday is a day of bad luck arose from varied reasons. One superstition is that it was on Friday that Adam and Eve ate the fatal apple, and then it is agreed that Christ was crucified on Friday. It is believed to be bad luck to cut the finger nails on Friday, and manicurists say their business is lightest on that day.

Adolph Tellkampt, of Hamburg, Germany, has brought suit against the Akron Cereal company for $5,000 damages, alleging that the Akron company sent him packages of cereal food with the figure of the Empress of Germany printed on them, but that the face of the Empress was noseless. As a consequence, the Germans would not buy, and he lost heavily.

The postoffice department has been overwhelmed with applications from communities throughout the country to name their postoffices "Dewey." Already twenty-eight postoffices in as many different states have been given the name of the hero of Manila Bay. This is only four less than those named after Washington. Over 300 other applications are on the postal files.

In a criminal prosecution recently tried at York, Neb., the jury, after brief deliberation, returned the following verdict: "We, the jury in the above named case, do not believe one word that the witnesses have sworn to; neither do we believe that any of the attorneys have spoken the truth, nor that either of them could do so, even ifo he should take the trouble to try."

Milwaukee raised $750 in cash and a carload of supplies for the New Richmond sufferers in less than twenty-four hours. Milwaukee is all right, and the hearts of her people are in the right place.

An Ohio man has secured a divorce from his wife on the ground that she "bossed" him and forced him to do the family washing and cooking. Ohio seems to be going backward.

Three hundred Hudson men donated a days work each in cleaning up at New Richmond. The Omaha railroad gave them free transportation, and the men carried their meals with them.

Wichita, Kansas, poeple dissolved a cyclone by firing a cannon into the funnel shaped cloud when it was about fifty yards distant.

If one-third of the Filipinos are killed or captured in each engagement, how long will the war last?.

Janesville people responded most liberally to the call for help from New Richmond.

GREAT ATTRACTION FOR JULY FOURTH

A VISIT FROM THE DARK TOWN FIRE BRIGADE.

Amusement Committee Receives Word From Chief O'Connor—Consists of Forty Adults, Twenty Five Pickaninnies, Twenty Women and Spanish Marine Band—A Cordial Welcome

The amusement committee of the Fourth of July celebration have received word from Chief O'Connor, of Darktown, Ga., that the Dark Town Fire Brigade will be in Janesville during the afternoon of the Fourth. The brigade consists of forty adults, twenty-five pickaninnies and twenty women, together with a Spanish marine band captured by the First Wisconsin regiment at San Juan. Chief O'Connor weighs 400 lbs., and is considered one of the best athletes. Two negro cabins will be erected, one on the east side and one on the west side, which will be fired during the afternoon, and a practical drill of the brigade will be given. The Spanish Marine band will play for the benefit of the crowd. They bring with them a hand engine built in Porto Rico the year after Columbus landed. Chairman C. D. Childs, of the Fourth of July committee, has given orders that the people of Janesville give the Georgians a cordial welcome on their arrival in the city, and the local fire department are requested to sit on the fence while the procession moves.

Toilet Soap Snap.

We have just received a large invoice of fancy perfumed toilet soap put up in 3 cake boxes, called La Belle Violette, that never retails for less than 25 cents per box that we are putting out at 10 cents per box. It is a snap of the best kind. The Aroma is delicate and lasting and the quality the best. Sanborn.

Cuban Bananas.

New York Mail and Express: The banana eating habit in this country seems to increase yearly. Each season sees the local markets more abundantly supplied with bananas and the fruit less expensive. While this is true of the yellow skinned bananas, the red or Cuban banana is both scarce and high priced. This week a fruit dealer in one of the large office buildings down town had a scant half bunch of the Cuban bananas, which he obtained with great difficulty from a small cargo that had just arrived at this port. Their growth was stunted and they were but half ripe, yet they sold at a dime apiece. Two cents might have purchased the most luscious of the yellow skinned fruit on the dealer's counter.

Better Than Diamonds.

In Germany crystals of silicon-carbide, called carborundum, which are practically as hard as the diamond, are employed instead of small diamonds for ruling fine lines on graduated scales. It is said that they produce lines more evenly drawn than those made by diamonds.

Sound Common Sense...

The saying is an old one but nevertheless a true one, "the best is always the cheapest." It has been proven true in Bicycles to a very great extent. People who bought "cheap" wheels last season and the year before are investing in good wheels this year, Too much expense in repairs, too hard running, in fact entirely worn out.

Listen to This Woman's Story

Sarah E. Bowen, of Peru, Ind., said:

"For eighteen years I suffered with weakness peculiar to my sex. I could neither sleep nor eat well, and was reduced to a mere skeleton. My skin was muddy, my eyes heavy, and I was dizzy much of the time. Doctors prescribed for me without avail; medicine seemed to do me no good. I was at the brink of despair when a friend told me what Dr. Williams' Pink Pills for Pale People had accomplished in a case similar to mine. I bought a box and took them. I bought more and took them until I was well and strong. Dr. Williams' Pink Pills for Pale People brought me new life and I recommend them to every suffering woman."—*From the Republican, Peru, Ind.*

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes $2.50.

DUNWIDDIE NAMED BY GOV. SCOFIELD

NAMED JUDGE FOR TWELFTH JUDICIAL CIRCUIT.

Decision By the Chief Executive Is Reached Yesterday—The Successful Candidate and Friends Received the Pleasant Intelligence Last Night - Untiring Efforts of Friends.

Judge Benjamin F. Dunwiddie, if you please.

Mr. Dunwiddie and his many friends were relieved from the tiresome position on the "anxious seat" last evening about 8 o'clock, when the "soothing" voice of Col. Anderson, Governor Scofield's private secretary, announced by telephone to Senator John M. Whitehead that the chief executive of the state had appointed Mr. Dunwiddie circuit judge of the Twelfth judicial circuit of Wisconsin to fill the unexpired term of the late Judge John R. Bennett. The contest was between County Judge George Grimm of Jefferson, and B. F. Dunwiddie, Green county dropping out of the race.

The success of Mr. Dunwiddie is due to the untiring efforts of the member of the local bar, who worked unceasingly in his behalf.

The fact that the appointment came unsolicited by Mr. Dunwiddie, reflects much credit to Mr, Dunwiddie and his friends of the bar

Sketch of Judge Dunwiddie.

Mr. Dunwiddie, who had been recommended by the Rock County Bar association to succeed the late Judge Bennett, was born in Decatur, Green county, Wis., in July, 1848. He is the son of David Dunwiddie, a brother of Judge B. Dunwiddie, of Monroe, Wis. He took two degrees, A. B. and LL. B., at the University of Wisconsin and came to Janesville in April, 1876, and for a time he was in the office of Judge J. B. Cassoday. In July of 1876 he formed a law partnership with Capt. Pliny Norcross of this city and remained with him until 1882, when the firm dissolved and Clerk of the Court Theodore W. Goldin succeeded Mr. Norcross. In 1892 Assemblyman William G. Wheeler entered the firm and it was Dunwiddie, Goldin & Wheeler. In 1895 Mr. Goldin withdrew, and it has been Dunwiddie & Wheeler ever since. Mr. Dunwiddie is an able member of the Rock county bar, and is held in the highest esteem by the community. On June 13, 1883, he was married to Miss Nellie Gray of Darlington, Wis. They have two boys. Mr. Dunwiddie is a prominent member of the First Baptist church, and is one of the leading business men of the city.

Receives Congratulations.

Last evening Mr. Dunwiddie was the recipient of hearty congratulations from members of the bar who called at his home, 165 Madison street.

Mr. Dunwiddie's term will expiere on January 1, 1901. The salary of the office is the neat little sum of $4,000 per year.

Mr. Dunwiddie has been in receipt of congratulations all day by telephone, telegraph or by letter. The following are a few:

Jefferson, Wis., June 17, 1899—Dear Judge—I have just seen in the morning's paper that you will receive the appointment as circuit judge, and I hereby extend to you my hearty congratulations and assurance of my best wishes for your success. My defeat leaves no soreness with me, and my heart harbors no envy towards you. May your course reflect credit on you and be a blessing to those whose security you are in a large measure called upon to guard. Very sincerely yours, GEORGE GRIMM.

Beloit, Wis., June 17, 1899—To Hon. B. F. Dunwiddie, Judge of the Twelfth Judicial Circuit, Janesville, Wis—My Dear Sir—The members of the bar here with the ten thousand citizens of Beloit extend the hand of greeting to Judge Bennett's successor. Our confidence is that your peculiar fitness for the office will enable you to meet its conditions in such way as will reflect credit upon yourself, upon the dignity of the position, and give large satisfaction to the people. Very truly yours, JOEL B. DOW.

Monroe, Wis., June 17—Hon. B. F. Dunwiddie—Accept my hearty congratulations. Good boy. NATHANIEL B. TREAT.

Madison, Wis., June 17—Judge B. F. Dunwiddie—My family gave three cheers for you at the breakfast table this morning, and unite with me in sending congratulations. L. M. FAY.

St. Paul Depot, East Madison, Wis., June 17—B. F. Dunwiddie—My sincere congratulations on your appointment. H. C. ADAMS.

TWO COUNTERFEIT SHARPERS

Masquerading Through Country Under Name of Hali Adali

There are two, possibly three counterfeit Turks now masquerading through the country and wrestling under the name of Hali Adali, conqueror of the mighty Yousouf, the "Sultan's Lion." They get into a community garbed in the oriental garb of the Turkish champion, ape his manner and then delude the public into the belief that the real champion is about to appear in a wrestling match. Tom Cannon and Antonio Pierre, who formerly controlled Hali, are somewhere in the west now with one Hali's Turkish garments. The undersigned will esteem it a personal favor if notified of the contemplated presence of these counterfeits. Wire at any expense, and an injunction will issue through the United States courts immediately on receipt of information. All expenses will be paid. Yours truly,

How to Make a Dog Happy.

If you want to make friends with a dog you will find that there is nothing that this animal likes better than to have some one rub his ears. If you will take a dog's ears and curl them up in your hands and squeeze them gently you will make a canine friend very soon. If the dog wears a collar you can add greatly to his comfort by scratching that part of his neck where the collar rests. These same methods are used by dog stealers.

MORE SUPPLIES WERE SENT TODAY

NINE LARGE BOXES FILLED WITH CLOTHING.

A Total of Fourteen Boxes Have Been Sent From the Bower City to New Richmond—Local Residents Have Responded Most Nobly—Forty Dollars More.

Eight dry goods boxes filled with clothing was shipped from Janesville today billed to New Richmond for the cyclone sufferers.

That Janesville has responded nobly in the way of assistance is quite evident as today's shipment makes a total of fourteen boxes of clothing, hats and shoes.

In the vacant store adjoining the Rock county bank the floor during the past two days has been piled with supplies.

A committee carefully went over the clothing, hats and shoes, selecting out only that which was worthy of being forwarded.

In several cases housekeepers were most generous, giving away good suits and dresses and in many cases comforters and bedding of all kinds.

An east side business man hurriedly made his way to relief headquarters yesterday afternoon informing the committee that his wife had given away his spring suit, in her eagerness to do something for charity, but he failed to recover it.

A First ward lady also lodged complaint saying that she was away from home when the wagon called and so eager was her hired girl to add to the list of supplies that she gave away her black silk dress.

Cashier Rexford, of the First National bank, reports an additional $40 that was forwarded yesterday.

Governor Scofield states that money is needed more than anything else.

Hundreds of boxes of clothing have been sent from all parts of the state so that no more supplies of this kind are needed.

The celerity with which the people of Stevens Point, St. Paul, Minneapolis, Milwaukee, Fond du Lac, Chicago, Janesville and other cities have sprung to the relief of the sufferers at New Richmond is wonderful.

A RECEPTION AT BRODHEAD

Members of the Janesville Cycling Club Were Royally Entertained.

Four members of the Janesville cycling club were royally entertained at Brodhead last evening by members of the Brodhead band and the Brodhead Cycling club, who are now making preparations for the running of an excursion train to this city next month, to attend the state bicycle meet.

At Broughton's opera house the band gave a concert from 8 to 9 o'clock, under the leadership of Prof. J. M. Barrett.

The program proved a most interesting one, the music being excellent.

In behalf of the visitors, Secretary Stanley D. Tallman responded to an address of welcome delivered by F. A. Taylor, chairman of the reception committee. In the course of his remarks Chairman Taylor stated that Brodhead would alone send five hundred strong, headed by their band, when the time arrived for the July meet, and that his city would do its share in swelling the attendance.

A dance followed the program, and the evening proved one long to be remembered.

WEEKLY REVIEW OF TRADE.

Significance of Upward Range of Iron and Wheat.

WORRIED OVER HIGH PRICES.

Dun & Co. Reports the Scarcity of These Two Commodities as Neither Real Nor Lasting—Exports of Gold Cause No Apprehension—The Failures.

New York, June 17.—R. G. Dun & Co.'s weekly review of trade says:

"It is one of the frequent paradoxes of business that the one thing which now makes prices rise is the only thing that clouds the future. They rise in iron and wheat because scarcity is feared, but the scarcity, if prolonged and real, would much impair prosperity. In wheat it does not seem to be real nor in iron lasting, and meanwhile other elements of prosperity continue potent. It is a great thing in money markets that exports of gold have caused no apprehension, because recognized as mere borrowings by foreign bankers, the May return of foreign commerce showing exports $23,000,000 larger than imports, in spite of a decrease of 59 cents in the export price of wheat, and a large increase in imports.

"Failures for the week have been 136 in the United States, against 233 last year, and 18 in Canada, against 20 last year."

Bradstreet's says:

"Weather and crop conditions figure to a greater extent than usual this week, not only in the domain of actual distribution, but in their effect on values of staples, particularly agricultural products, a majority of which are higher. Noteworthy in this respect is wheat, which has advanced on government and other reports, pointing, according to some, to 550,000,000 bushels, and by others estimated as low as 500,000,000 bushels. Cotton remains remains unchanged. Advices as to distributive trade are in the main very favorable. The iron and steel trade displays unexampled activity as regards summer production and consumption.

"Wheat (including flour) shipments for the week aggregate 2,799,471 bushels, against 3,158,047 bushels last week. Corn exports for the week aggregate 3,2.5.301 bushels, against 3,339,839 bushels last week."

FUNERAL OF RICHARD P. BLAND

Services at Lebanon Attended by Many Members of Congress.

Lebanon, Mo., June 17.—Sergeant-at-Arms B. F. Russell of Washington had charge of the funeral of Congressman Bland. In the opera house he had erected a handsome catafalque, upon which the remains were placed yesterday afternoon. The funeral ceremony consisted of music by the combined church choirs, reading of the scriptures and pronouncing of the invocation by the Rev. J. W. Wilkinson of Trinity Episcopal church. The Rev. W. K. Collins of the Madison Avenue Methodist Episcopal church delivered a discourse, followed by the Masonic services, conducted by Worshipful Master J. W. Farris. The Rev. J. E. Alexander of the Methodist Episcopal church south delivered the closing prayer.

The congressional committee acted as honorary pallbearers. Vice-President Hobart designated the following senators as a committee to attend the funeral: Vest and Cockrell of Missouri, Cullom of Illinois, Teller of Colorado, Berry of Arkansas, Allison of Iowa and Harris of Kansas.

Noah Hawk of Willow Springs, who is deputy sergeant-at-arms of the house of representatives at Washington, attended the funeral, and selected Congressmen Joy, De Armond, Lloyd and Clark of Missouri, G. W. Farris of Indiana, Bailey and Lanham of Texas, Pierce of Tennessee and Henderson of Iowa as a committee to represent that body.

Vexed Question in Indiana.

Terre Haute, Ind., June 17.—The question of the screen scale prices before the executive boards of the Indiana United Mine Workers of America and the bituminous coal operators of Indiana may result in labor troubles which will affect the entire state. BELMONT OUT FOR GORMAN.

New York Politician Says Democrats Should Name Him for 1900.

New York, June 17.—Perry Belmont, president of the Democratic club, who sailed for Europe today, expressed himself as heartily in favor of the nomination of Arthur P. Gorman for the presidency by the democrats. It is known that there have recently been conferences in this city of party leaders of national prominence in Mr. Gorman's interests; hence great significance is attached to Mr. Belmont's declaration.

On the questions of trusts as an issue Mr. Belmont made this statement:

"It is incredible that democrats will demand that the federal power shall control state industries and state corporations that are absolutely local. I think the republican party will evade this issue.

"As to a reaffirmance by the democratic national convention of the predominance of the 16 to 1 fad as a winning issue, I have nothing to add to what I have already said. The parity of all our dollars will not be threatened or impaired by democrats who solicit and expect for their ticket the votes of salary-earners and wage-earners."

FIRST RECIPROCITY TREATY.

Convention Covering Barbadoes Signed Yesterday Afternoon.

Washington, June 17.—A new treaty between the United States and Great Britain, covering reciprocity with the British West Indian colony of the Barbadoes, was signed at the state department on Friday. A conference was held at noon Friday to perfect details, and the signing of the instrument took place later in the day.

This is the first treaty under the reciprocity clause of the Dingley tariff, as the previous agreements have been made under a section allowing "reciprocity arrangements" by proclamation and without the formality of a treaty. It is the first of the series of treaties which the British West Indian colonies—Jamaica, Guiana and Bermuda—are seeking.

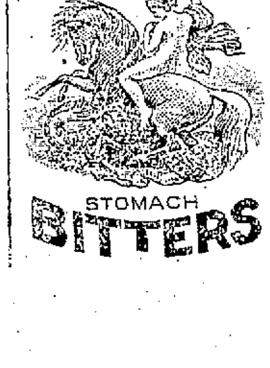
Horses Shod with Straw.

In Japan most of the horses are shod with straw. Even the clumsiest of cart horses wear straw shoes, which, in their cases, are tied around the ankle with straw rope, and are made of the ordinary rice straw, braided so as to form a sole for the foot about half an inch thick.



There is nothing which drains energy, ambition and endurance like Malaria, Fever and ague.

Hostetter's Stomach Bitters will SEND them away and KEEP them away. It has never failed to cure the worst cases. This is a fact—not an experiment. Try it.

RUNNING SORE ON HIS ANKLE.

After Six Years of Intense Suffering, Promptly Cured By S. S. S.

Obstinate sores and ulcers which refuse to heal under ordinary treatment soon become chronic and deep-seated, and are a sure sign that the entire circulation is in a depraved condition. They are a severe drain upon the system, and are constantly sapping away the vitality. In every case the poison must be eliminated from the blood, and no amount of external treatment can have any effect.

There is no uncertainty about the merits of S. S. S.; every claim made for it is backed up strongly by convincing testimony of those who have been cured by it and know of its virtues by experience.

Mr. L. J. Clark, of Orange Courthouse, Va., writes:

"For six years I had an obstinate, running ulcer on my ankle, which at times caused me intense suffering. I was so disabled for a long while that I was wholly unfit for business. One of the best doctors treated me constantly, but did me no good. I then tried various blood remedies, without the least benefit. S. S. S. was so highly recommended that I concluded to try it, and the effect was wonderful. It seemed to get right at the seat of the disease and force the poison out, and I was soon completely cured." Swift's Specific—

S. S. S. FOR THE BLOOD

—drives out every trace of impurity in the blood, and in this way cures permanently the most obstinate, deep-seated sore or ulcer. It is the only blood remedy guaranteed purely vegetable, and contains not a particle of potash, mercury or other mineral. S. S. S. cures Contagious Blood Poison, Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Sores, Ulcers, Boils, or any other blood trouble. Insist upon S. S. S.; nothing can take its place.

Wichita, Kan., June 17.—Passenger train No. 1, on the Kansas City, Pittsburg and Gulf railroad, was held up by the Cook gang of outlaws three miles south of Poteau, I. T., about 10 o'clock Thursday night. The robbers forced an entrance to the mail car, blew open the safe, and secured $500 and express orders to an unknown amount. Two members of the gang made a trip through the train and relieved the passengers of their valuables. The amount of booty secured will reach $2,500.

A posse left Poteau two hours after the robbery, but no report of a capture has been received.

PRESIDENT McKINLEY USES TOO MUCH TOBACCO

According to a writer in the Boston Globe President McKinley's trip to Hot Springs, Va., was taken for the purpose of getting rid of nicotine. This writer goes on to say: No man of prominence in American life since Gen. Grant has been so industrious a cigar smoker as Mr. McKinley. He's smoked all day long.

MILLIONS OF MEN smoke ten to twenty cigars a day with not any bad effect. Some tobaccos contain too much nicotine, hence that dull feeling after smoking. The "J. K." Cigars are made from the finest selected and cured remedious tobacco, contains less nicotine (tobacco poison) than any tobacco grown. It is a mild, free smoke, rich in aroma, equal to most ten-cent cigars and better than any half-dime cigar made. At druggists and cigar dealers.

Bird Day.

In Iowa the schools have a holiday which is called Bird Day, and they are now trying to have it set aside in all the other states. On this day original compositions were read about birds, the young writers finding out for themselves the things they wrote about, the teachers gave talks, debates were held, and fine pictures of our feathered friends were shown. One good thing that has been done by this Bird Day in Iowa is to stop the boys from killing the helpless little songsters. As they study them and know more about them they grow to love and protect them.

Easily Settled.

An interesting divorce case assigned for trial at the present term of court, held in Bath, Me., did not come up for a hearing, as the trouble was settled, the husband receiving $75 in cash, a horse, blankets and harness, all of his carpenter and blacksmith tools, by the agreement. The couple "parted friends," and the husband relinquishes all rights of inheritance and is free to marry again.

Just a Weigh He Has.

Giles—"I don't see how that ice man manages to make a living." Miles—'Why, I thought there was big money in the ice business?" Giles—"There is if one sells enough, but you see he gives nearly all of it a weigh."

"Service" Instead of Hello.

From the Washington Post: In one of the new apartment houses in town they have adopted a plan which does away with the rude "Hello" which came in with the telephone, and which conservative persons have never been able to use without an apology to themselves for its lack of elegance. Every room in the house is connected with the office by telephone. You ring the bell, put the receiver to your ear, and a respectful voice says, with a rising inflection, not "Hello," but "Service?"

Tides in Inland Lakes.

Fresh water lakes have no ordinary tides, but remarkable tide-like effects are created on them by gales of high winds at times. In Lake Erie, for instance, a gale will raise the water as much as seven feet on one side, reducing it proportionately on the other side, causing a total difference of level of fourteen feet. Official measurements made along the shores of the Caspian Sea in heavy gales show an occasional difference of level of twelve feet.
